

Meet **Brittany Hartl** – Senior Class Secretary

Why did you want to serve as an officer for the Senior Class?

I wanted to be involved in making decisions for our class. It is always beneficial to know what is going on and to actually be a part of something that matters.

What is the best memory you have as a Sequoit?

Personally, my best time that I have had as a Sequoit was when I was involved in the Winter play (Charley's Aunt) in my junior year. Other than that, though, I have had a great time at the dances and the football games, especially this year. Playing on the volleyball team is also among my fondest memories.

How important is school spirit?

School spirit makes everything much more entertaining and really pumps up all of the teams. It is important to have because it shows that students are proud of their school and of their peers.

How can I bring out the 'school spirit' in my friends?

Be the first to do something crazy. Deck out in all Sequoit clothes, paint your face, or do anything that shows you have spirit. Make it fun for them by screaming and going crazy. They will follow along.

What words of wisdom can you pass on to the next class?

This is pretty much your only chance to experience high school. Focus on school, do your assignments, and always work your hardest. Walk away from high school knowing that you gave it your all. But you must also remember that it is your only chance to experience high school, so do it right. Venture out of your comfort zone and try new things. Do not pass up the chance to go to the big game or the dance. Do as much as you can now before it is too late. Be smart about your actions, but be fearless about going for what you want. Don't let anyone hold you back. It's your time, so make it worth it.
