

Facebook Assignment for Shakespeare's *The Tragedy of Julius Caesar*

English II • Mr. Thompson

The Task: Demonstrate your understanding of the characters and their relationships in the play *Julius Caesar* by creating a Facebook account for one of the characters. Here are the characters you may choose from:

Julius Caesar
Marcus Brutus
Caius Cassius
Marc Antony
Calpurnia Pisonis
Portia Catonis

Real people can have many pages associated with their Facebook account, but for this assignment you'll make just two: the character's wall and information page. The only pictures that you'll need to supply will be profile pictures for the character and any friends or photos albums he or she might have.

Step 1: Decide on a character and whom his or her friends might include.

Step 2: Write the material for the character's wall. Dates are important, so be sure to include the appropriate one for each status update.

Step 3: Decide on what to list for the character's occupation, hometown, interests, etc. so you can complete the information page.

Once you have all of this decided upon, go to my web page and download the Facebook template. Replace the text and photos on the template with the information you created in the previous steps.

Important: Save your file in this format:
Name&Name_Facebook.ppt (for example: Steve&Mary_Facebook.ppt)
If you don't name your file correctly, you won't get credit for it.

Finally, and maybe most importantly, email the finished PowerPoint file to me (mthompson@sequoits.com). In your email, include the names of whomever worked on the assignment.

We'll have some fun and look at these in class later in the week.
